35. Hasegawa, Takako	Japon	35.85	36.000	71.850
36. Metheny, Linda	Etats-Unis	0.00	36.250	36.250

1. The first step is to identify the problem or goal. This involves understanding the current situation and what you want to achieve.

2. Next, you need to gather information and resources. This could involve research, consulting experts, or identifying the people and tools you need.

3. Then, you should develop a plan. This involves breaking down the goal into smaller, manageable tasks and determining the order in which they should be completed.

4. Finally, you need to execute the plan. This involves putting the plan into action, monitoring progress, and making adjustments as needed.

CONCLUSION
